

FUEL STORAGE – TRANSPORTABLE

ABBI MOBILE REFUELER

264 – 710 Gallons / 1,000 – 2,685 Litres

The Abbi mobile refueler is a line of double-walled fuel storage tanks known for its transportability and ease of use.

Fully approved for transport when full, the Abbi storage tanks are well suited as a mobile refueler, traversing around jobsites to refuel machinery and equipment onsite.

FEATURES

UNIQUE DESIGN

Innovative shape has a lower center of gravity which provides safer and more reliable transportation.

INTERNAL Baffles

Designed to maximize stability when handling the tank full of fuel.

DOUBLE WALLED, 110% CONTAINMENT

Weather proof secondary containment ensures safe and environmentally compliant transport and storage.

ACCESS MANWAY

Allows access to inner tank for easy routine maintenance and inspection.

LARGE LOCKABLE CABINET

Integral equipment cabinet that secures all equipment and ports while capturing any accidental drips or spills.

DOT APPROVED

The Abbi's fully galvanized trailer is fully compliant with DOT standards and features backlights and electric brakes.

FORKLIFT POCKETS

Quick and easy maneuvering when detached from trailer.

APPLICATIONS

ONSITE FUEL SUPPLY

With the Abbi mobile refueler, you can quickly and efficiently refuel machinery around your site and facility.

FUEL TRANSPORT

Meeting multiple worldwide transport regulations, the Abbi can transport fuel safely anywhere you need it.

THE ABBI MOBILE REFUELER ADVANTAGE

UP
TIME

INCREASE UPTIME

Job sites can consume a significant amount of fuel. Waiting for a fuel delivery stops your machinery and staff from continuing to work, and if not timed correctly can cause serious delays. With an Abbi mobile refueler, you can quickly and efficiently refuel machinery around your site and facility. The Abbi's UN DOT approved design allows for quick, compliant and safe transport to and from locations.

SAFETY AND PEACE OF MIND

Transporting and handling fuel requires reliable and environmentally friendly storage equipment. One spill can cause serious fines and, depending on the severity, can even hurt your company's reputation. The Abbi's double-walled, 110% contained design and integral equipment cabinet effectively capture and contain any potential drips or spills that could occur.
