

FUEL STORAGE – STATIONARY

# TRANSTANK P SERIES

7,999 – 21,715 Gallons / 30,280 – 82,200 Litres

The TransTank P Series is an environmentally friendly, stationary bulk fuel container that offers an efficient solution for heavy-duty, on-demand fuel supply applications.

Offering effortless connectivity and a reduced storage footprint, the TransTank P Series is designed to exceed expectations for fuel farms, temporary power plants and complete fueling stations.

## FEATURES

### ACCESSIBLE

Access manway on the top of the tank allow for access to the inner tank for easy routine maintenance and inspection.

### EFFORTLESS CONNECTIVITY

Tanks can be linked together for unlimited storage capacity – perfect for fuel farms and power projects.

### ENVIRONMENTALLY FRIENDLY

The double-walled design eliminates the need for secondary berms or basins.

### DESIGNED AROUND MOBILITY

The TransTank P Series is built to ISO Container Dimensions and features forklift pockets, allowing the tank to be easily shipped when empty.

### STACKABLE

ISO Container dimensions allows tanks to be stacked when empty to reduce storage space required.

### SECURE

The lockable equipment cabinet secures all ports and fittings as well as captures all spills and drips.

### BUILT-IN LADDER

Built-In ladder allows for easy access to the top of the tank.

**P31**  
7,999 GAL | 30,280 L

**P69**  
17,731 GAL | 67,120 L

**P85**  
21,715 GAL | 82,200 L

## APPLICATIONS

### COMPLETE FUELING STATION

For fleet refueling or the sale of fuel, TransTank P Series tanks can be fitted to become complete fuel dispensing and management systems.

### BULK FUEL SUPPLY

The TransTank P Series offers an efficient solution for large, on-demand fuel supply needs for construction equipment, generators, etc.

### FUEL FARMS

With their modular design, the TransTank P Series tanks can be linked together easily to provide unlimited storage capacity.

### TEMPORARY POWER PLANTS

The TransTank P Series is well-suited for the continuous operation of large generators and international power projects.
