

FUEL STORAGE – TRANSPORTABLE

# TRANSTANK TT SERIES

2,061 – 5,416 Gallons / 7,800 – 20,500 Litres

The TransTank TT Series is a fully transportable, double-walled fuel storage container that was designed for bulk fuel transfer and emergency fuel supply.

Built to ISO container dimensions, the TransTank TT Series allows for simplified shipping by road, rail or sea.

## FEATURES

### SECURE CABINET

Lockable equipment cabinet that secures all ports and fittings, as well as captures all spills and drips.

### ACCESS MANWAY

Easy access to inner tank for routine maintenance, inspection and cleaning.

### STACKABLE

Container design allows stacking up to 6 high when full - reducing your storage space required.

### SECURE HOSE ACCESS

Letterbox-style ports enable continuous fueling while the cabinet is locked.

### FORKLIFT POCKETS

Forklift pockets for easy movement when empty.

### INTERNAL BAFFLES

The inner tank is designed with internal baffles that allow the tank to be safely moved full of fuel.

### DOUBLE WALLED, 110% CONTAINMENT

Built-in, weather proof secondary containment eliminates the need for pans or basins.

**100TT-IMDG**  
2,061 GAL | 7,800 L

**200TT-IMDG**  
5,416 GAL | 20,500 L

**200TT-CAB-IMDG**  
4,888 GAL | 18,500 L

## APPLICATIONS

### BULK FUEL TRANSPORT AND SUPPLY

The TransTank TT Series is built to ISO container dimensions to allow simplified shipping and transportation by road, rail, or sea.

### EMERGENCY FUEL SUPPLY

The TransTank TT Series tanks can be quickly deployed to natural disaster sites to assist displaced residents and rescue workers who heavily rely on temporary power sources.

### COMPLETE FUELING STATION

For fleet refueling or the sale of fuel, tanks can be fitted to become complete fuel dispensing and management systems.
