HOW TO LOAD ATTACHMENTS

- From the home screen of the scale app, click the menu button (top left corner)
- Select **ATTACHMENTS**
- Click the “+” button on the top right-hand side of the screen
- Fill in the top three options
- Make sure **SCALE ENABLED** is turned **ON**
- Select icon for attachment (optional)
- Make sure to calibrate attachment once added (will not weigh if not calibrated)
- If attachment has been calibrated, confirm on the attachments page there is a green check mark on the right side of the attachment name.

***To select an attachment on the home screen:** Tap on either the bucket icon or select attachment on the bottom right hand side of the screen, select appropriate attachment and click **OK**
