AI Intelligent Detection

VBV-2220C-AI-D04 front-facing AI camera VBV-2230C-AI-D04 rear AI camera

Almost every week, cyclists and pedestrians are involved in collisions involving commercial vehicles. Many vulnerable road users are unaware of the blind spots to the front and rear of an HGV, leading to serious incidents because they have not been seen by the driver.

Al cameras are a new generation of active blind-spot detection. Using Artificial Intelligence, the cameras detect and recognize the human form within the pre-defined detection zone and reliably warn the driver visually and/or audibly before a possible collision occurs. Image processing is built-in to the camera, meaning no other hardware is required.

- High Definition image
- Recognizes and alerts the driver to people in the front and rear blind-spot
- Detected people are shown in a colored box overlayed on the HD camera image on the driver's monitor
- Image processing and detected-person-overlay directly from the camera unit
- Plug and play: Al camera connects directly to the Brigade monitor and/or optional buzzer
- Brigade Select range connectors
- Compatible with all Brigade HD monitors and MDR recorders

About us:

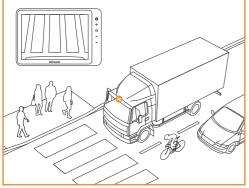

Brigade Electronics is a market leader of safety devices, with solutions to suit all commercial vehicles and mobile plant. Our complementary range of safety devices help prevent collisions by assisting the driver while protecting workers, pedestrians, and cyclists.

7321 7396

- 12-24Vdc
- Camera Viewing angle: Front : 140° Rear: 52°
- Al Detection range: Front: Covers Class 6 area Rear: Up to 36' (dependent on camera mounting height)
- IP69K
- Camera Size (WxHxD) 3.8 × 3 × 2.8 inches
- · 2 years warranty

Features

- High Definition AHD 1080P
- Recognizes and alerts the driver to people in the front and rear blind-spot
- Detected people are shown in colored box overlayed onto the camera image
- Image processing and detectedperson-overlay directly from the camera unit
- Plug and play: Al camera connects directly to the Brigade monitor and/or optional internal buzzer or external alarm
- Brigade Select range connectorsCompatible with all Brigade HD
- monitors and MDR recorders
- Alarm trigger output: 12V

Specifications

- 260mA @12V, 140mA
 @24V Imaging
- Operating Voltage: 12-24V
- TV system: 25fps
- CMOS 1/2.9" 2M Pixel sensor

Durability & Standards

- Mechanical vibration: 5.9G
- Operating temperature: -20 to +70°C / -4 to +158°F
- E-marked: UNECE R10 compliant
- CE marked
- FCC Approved
- UKCA Approved
- IC Approved
